

ITB7-2522

Pipe Inspection Camera

25mm Imager / 22m Reel

Clear Pipe Inspections. Priced for All.

The Inspectron ITB7-2522 is engineered to deliver supreme visibility inside pipes, drains, sewers, and other tight compartments. Designed for both indoor and outdoor usage and easy transport. Find blockages and then show clear results with customers.

Key Benefits

✓ Block Identification

Find cracks, blocks and more in pipe from 1- $\frac{3}{4}$ " to 4- $\frac{1}{4}$ " with 25mm, 1080p camera.

✓ Pipe Navigation

Steer through tricky bends and traps with 22m reel, specifically on residential and commercial jobs.

✓ Flexible Uses

Use in residential drains, small commercial drains, small sewer laterals and more.

✓ Adaptable Locating

512 Hz, industry standard sonde, pairs with most locator tools.

✓ Customer Trust

Transfer images/videos to customers so they can see problems and reduce call backs.

Why This Camera?

✓ 7" HD Capacitive Touchscreen

Large, clear view to identify blocks in dark piping, both indoors and outdoors in sunlight.

✓ Up-is-Up™

Self leveling technology keeps your sight level in complex piping.

✓ Price

Core features at an attractive price point.

✓ Compact & Durable

Easy to transport and built to withstand drops, sharp edges in piping, and the daily grind.
